Contact your sites HR and ask to join the L2 Lean Manufacturing Operative course

LEAN MANUFACTURING OPERATIVE

Running on your site

L2 LEAN MANUFACTURING

Occupation profile:

– A Lean Manufacturing Operative will be expected to carry out their work safely and meet the exacting quality standards demanded in a fast paced and efficient environment and develop into a multi-skilled operator through process ownership.

WHO IS IT FOR?

If you want to improve your career prospects; if you want to improve your work environment; if you want to learn a new skill set that you can use both in work and outside work; then this is the course for you.

BENEFITS OF THE QUALIFICATION:

- Support your career development.
- Gain a nationally recognised qualification
 - Lean Manufacturing Level 2 Apprenticeship
- Gain skills and knowledge which can be used across a range of jobs and industries, in a structured and supported environment.
- Work as a team to improve your work environment through projects.
- Showcase your capabilities to management.

COURSE OBJECTIVES

A combination of classroom and work-based activities to learn and be able to use a new skill set.

You will meet with the course leader at least once a month. Support will be given to develop your improvement projects.

The following areas will be covered:

- Health and Safety
- Environmental Practices
- Specific Production Activities
- Lean Manufacturing Operations
- Quality Control
- Problem Solving
- Continuous Improvement
- Communication and Workplace Organisation (5S)

GAIN NEW QUALIFICATIONS

- L2 Lean Manufacturing Qualification
- Level 2 BTEC Diploma
- Functional Skills in English and Maths

COURSE DETAILS

- The apprenticeship usually takes about a year to complete. Your assessor will visit you in the workplace to help you build a portfolio of evidence. The course is made up of a mixture of practical projects, distance learning and portfolio building.
