Supply Chain Practitioner

SUPPLY CHAIN PRACTITIONER

Level 3 Apprenticeship

L3 SUPPLY CHAIN PRACTITIONER

Occupation profile:

- Supply Chain is at the heart of every business, it is a system of organisations, people, activities, information and resources involved in moving products or services from supplier to customer. It may include the transformation of natural resources, raw materials and components into a finished product.
- Supply chain functions include procurement, forecasting, planning manufacture, customer service and logistics.
- They have a comprehensive understanding of the entire supply chain, are responsible for their impact on each function and strive to deliver the best value for their business and customer. Due to the high number of interactions both within and outside of the business, they need strong relationship building, influencing, stakeholder management and communication skills alongside sound analytical, information technology and numeracy skills, with an ability to work in a fast-paced environment with frequently changing requirements.
- FMCG Supply Chain Practitioners will be able to progress to management or specialist roles.

BENEFITS OF THE QUALIFICATION:

- Gain transferrable skills
- The program is underpinned by Leading companies in the UK
- Sought after qualification
- Gain confidence, support and coaching
- Regular reviews with candidate, assessor and supervisors
